A gang of twenty people, cult type mentality, full of conspiracy theory, incoherent arguments, zero proof for any of their weirdest allegations(weirdest allegations like “Mr Biao is responsible for covid virus and is killing americans!”picture of Mr Biao with hammer and sickle on his head!) come to our town every day to harass and intimidate a prominent human right activist in his own home in front of his family and neighbors. They come in a North Carolina number plate van (pic1). They don’t identify themselves or show their faces. They do this everyday 10 am to 4 pm, unless it is raining, record and live stream this to whoever their organizer is. Many of us faced this gang today to make sure that the family of Mr Teng Biao feels safe and that the protestors know that this harassment and cult/gang culture is not welcome in our neighborhood.

Unfortunately, the sidewalk is a public place and police can’t do much about twenty people standing shoulder-to-shoulder, no social distancing, blocking the entire sidewalk for hours, stalking a family. What is the solution? They will come again tomorrow at 10am. They probably need to hear from more people, a lot more people that their behavior is not welcome in our neighborhood. Many of us have to work on weekdays, unlike these “protestors” who I am not sure if someone is paying them to do this on weekdays. Tomorrow and any future day, please come out in numbers at 4 Jill Drive if you hear that the gang has shown up and tell them to leave our neighborhood.

Thoughts? Solution?

P.S. They call me mexican and don’t want to talk to me....later they called me “american indian”, probably meaning “native american”....they talked to our white residents who were there to counter-protest, but to the chinese residents they used abusive nasty language in mandarin, one of them man-handled YZ...they are pretty sure that I am getting paid by CCP, that YZ is fooling everyone that he is a local resident and YZ is a CCP spy! If Mr Biao says the simplest thing that this is harassing his family, they shout that he is a liar!! Go figure.

Thank you Alok to take a lead on organizing township neighborhood friends to help the family. I encourage everyone able to come counter protest. My 87 year old mom asked: so what is the purpose? Very simple, intimates Mr. Biao and his family

Alok Sharma, I am horrified by what's going on. This is harassment & stalking, pure & simple. If these people believe that Mr. Biao is a CCP spy, they should file a report. This is not the way to do it. This is America, they cannot intimidate a private citizen for his beliefs. And shame on people who use their wealth to harass others. Thanks for supporting a neighbor.

This is strange behavior. So, they are protesting that he is a spy for the CCP? Then, why don't they report him to the authorities, give them the evidence that they have? What will this accomplish?

🗳️ **David Henderson** Yes, but it is neither common nor decent practice to protest issues at people's private residences. This group was cursing at their child, his wife, and from my perspective acted completely differently when speaking to those who speak Chinese than those who didn't. They are only there to harass and one of them actually quoted to me, "we are fighting a war" to which I responded that no one has a right to bring their 'war' to a private civilian and his family nor does anyone at all have the right to wage war here. This family and their lovely neighbors have heard and received their message. We were all very aware that they believe that Mr. Biao is responsible for Covid and a myriad of other accusations they had zero evidence for (minus a word document with talking points and a tweet). Everyone heard them, spoke with them, and many were trying to explain the court petition they brought as evidence (which turned out is from Hawaii and hasn't yet been filed) because they did not read the document they brought that turned out to not be real anyway. Their point was made, but we know that bringing attention to their cause was not the point. Harassing this family is. They came out of line when one challenged Mr. YZ and became physical. They mean to go nowhere any time soon. I ask you, is this really what we want, protesting those we disagree with (or detest) at their home?? That's just chaotic.

I talk with folks like this almost everyday. What I've found to be successful is actually listening to them and trying to discuss things on their level- Facts tend not to work, which is a weird thing to say. Usually, in practice, that tends to make them more likely to disperse.

Thanks Alope for getting people's attention. Eric and I stayed until they left close to 4pm. I was trying to tell them that their hostile behaviors towards Mr. Teng and his family and friends are not helping their cause at all. If they had any credibility to begin with, when they behave like that, when they start to come here everyday with only one agenda - to harass and intimidate Mr. Teng and his family, they lose all their credibility for all their propaganda. Let's all try to tell them that, and hopefully one of their "ring leaders" will realize this doesn't work towards their advantage and stop. Maybe it won't stop them, but I feel at least we can send them a clear message that they're falling into their own trap by doing this.

The protesters have been physical. A guy named Matt was walking his dog and they swiped at him and his hand got bloodied. Today, Lauren got shoved. They are not peaceful. And screaming obscenities is not peaceful.

on Mon Like Reply More

Joe Lewis

I'll gently push back a little. There was a pocket of protesters that were very antagonistic, however they were fairly harmless from my perspective. I will say that YES, Lauren was clearly shoved but

they were able to produce an angle that suggested she initiated. Officers essentially warned that it existed if a complaint were to be filed.

I was able to talk to the organizer alongside a few people for over an hour. I was also able to get some better information about why they were there as well as the affiliation with the township. I also got a very clear argument about their intentions.

Esther Sun Essentially they want to bring attention to the idea that Covid-19 was modified in a lab and this women is being suppressed and the media lying to us- Basic QAnon stuff.

I was able to get out of multiple individuals that this virus occurred from nature BUT was modified in a lab. This directly goes against the claims that Dr.Limeng-Yan was trying to lay out.

Furthermore, I also found out that this coalition consist of people from Flushing, Staten Island, and West Window.

They also want Dr.Teng to admit a few things, which obviously will do nothing, but they were able to articulate that as a possible resolution to matter. Obviously that is not something that could be humored.

You cannot use logic and facts with these type of people, but you still have to listen to them. I watched all of the footage over the past few days and a fundamental problem is that the energy that is being brought towards them is matched, which gets nothing done.

I read all of Limeng-Yans articles concerning Covid-19 that they mentioned. None of them were peer reviewed. The problem here is that they are using a non-peer reviewed article for the basis of their claim.

The organizer also insisted that they are not "paid" protesters. He also confirmed that he is a member of the township.

That is what I was able to get in an hour. I also got sevens names.
