You should call township health officer and use ordinance 115 - this is a covid related safety hazard for township residents wanting to use using sidewalk. These people should not be standing on sidewalk. Also, if you have sound meter, I think they will also be in violation of noise township ordinance 113

on Mon Like Reply More

**Alok Sharma**

**Mala**, their goal is the attention from their sponsor....they face-time with whoever that is, record all of this.....this is the "product" they submit to make the sponsor know that it is worth the, my estimate \$4,000 daily, spent on them. The "product" they are selling to that person is intimidation and violence.

Can't the neighbors complaint about these loitering? If there is loud music or suspicious car in my neighborhood I can call my town police for a check. If neighbors say they feel unsafe there should be some law or protection.

**Filip Sogan** I will assume that WW is still safe. But these are days when paid and imported folks create havoc in big liberal cities and I am more worried that the few folks who came so close to Alok may be exposing him to covid19. He is taking a huge risk and when someone like that came close to him, he had to protect himself.

Protesting peacefully and obeying local laws is fine, but not physically coming close despite telling the other person to stay back.

Separately, I still think it is a Wuhan lab China virus. I lost my dad to this virus on Jan28, he was one of the earliest victims this year.

My dad, he was 91 and very healthy ie, until he could no longer breathe. All his 91 years he had never seen a doctor or a clinic. And we could not save him. He was on a ventilator and I saw him luckily for the last week he was breathing at home and later in the ICU.

It is a huge mistake to ignore the origins of this bio-terrorism tool let loose on us all.

China had banned travel from Wuhan to any of its other cities very early on, but it was freely allowing flights out to the rest of the world, delaying the true information on the extent of death and destruction caused by this new fast spreading virus. Why? And WHO enabled them!

There is a lot of open questions for which we will not have a definitive answer.

But this post is about stalking and intimidating a peaceful resident of our town no matter how much we may agree or disagree.

Teng Biao, born on August 2, 1973, a spy set by the Chinese Communist Party (CCP) in the United States. He claimed to be against the CCP, but in fact used a series of, shady operations to deceive those fighters who are really anti-CCP and stole their personal information. He sent the information he obtained to the CCP, which led to the arrest and persecution of those real fighters. He now lives in West Windsor, Plainsboro in New Jersey with his wife and two daughters. It is not clear which school his younger daughter goes to, but it is confirmed that his eldest daughter is studying at a public high school in the school district where the family lives. This is a huge threat to the students in this school district and their families because they will steal all your personal information. If you have any tendency to oppose the CCP, then you are likely to be on the list of them and the CCP. These CCP spies are also a huge threat to the US. The CCP has been stealing important information and technologies from the US several times. Those apps like Tik Tok are one of the methods, and the other is these hidden spies around you. There are countless spies like Teng Biao. On the surface, they are opposed to the CCP, but actually, they secretly collect the CCP's money and stand in line with the CCP. Everyone must wake up and see the truth, otherwise America will be completely infiltrated by these wolves in sheep's clothing.

滕彪，1973年8月2日出生，是中国共产党在美国的间谍，他声称自己反对中共，但实际上使用了一系列阴谋手段来欺骗那些真正反中共的战士并窃取他们的个人信息。他将获得的机密信息发送给中共，导致这些真正的战士被捕和迫害。他现在住在新泽西州West Windsor的Plainsboro，目前尚不清楚他的小女儿上哪所学校。但可以确定他的大女儿在家人所在学区的一所公立高中学习。这对本学区的学生及其家庭构成了巨大威胁，因为他们将窃取您的所有个人信息。如果您有反对中共的倾向，那么您很可能成为他们的目标。这些中共间谍在美国也造成了巨大威胁。中共已经多次窃取美国的重要信息和技术。像Tik Tok这样的应用程序是其中一种方法。另一种方法就是在您周围的这些隐藏特务。在美国有很多像滕彪这样的间谍。他们表面上反对中国共产党，但实际上他们偷偷地从中共那里收取钱款。在现实生活中，他们与中共站在一起。每个人都必须清醒过来，看清真相。否则这些披着羊皮的狼将完全渗透美国。

He's a communist. Here's a video of him giving a talk about how CPP is misunderstood.

<https://fb.watch/2ep-qZhZtr/>

VOA TIBETAN May 6, 2016 at 2:36 PM

Dr. Teng Biao: The World Misunderstands The Chinese Communist Party

A Chinese human rights lawyer, former lecturer at China University of Political Science and Law, and currently a visiting fellow at Harvard Law School. Dr. Teng co-founded 'The Open Constitution Initiative' (Gongmeng) whose report on the 2008 uprising in Tibet challenged China's policies in Tibet. He is also a signatory to the Charter'08 manifesto which calls for Freedom and Democracy in China.

David Henderson you should actually listen to the video... he is critical of the CCP saying they break promises and don't give their people the rights promised to them in their own constitution... he says the CCP is misunderstood because it's not like other modern governments.

Don't you think this is inline with his role of being a human rights activist opposing the CCP?

You can't simply google the mans name with the word communist and make that association. At least read a little deeper.

Conservatives seem to believe many protests/protestors are paid opposition... why is that so hard to believe now?

@David, not sure exactly what you're driving at. If your main source of intel is Fox News, this barely scrapes the surface. It's not a reputable outlet, just as CNN is not. I have been conducting business with China for nearly 2+ decades with experience there - in person- on both mainland and HK. You cannot infer- from a single professor in Beijing who Tucker Carlson showed speaking about his opinion- that an entire government is corrupt. The corresponding of our tariffs increasing to 10% on all Chinese imports (essentially doubling what had been in place since 1992)- was not a reason to release a bio weapon (Covid 19) and support Biden's election. The two are not mutually exclusive. I feel like Tucker is showing a very biased view of China that does not accurately identify the society I work with. Remember also that many companies decided to share the tariff, essentially taking on that extra 5% as it was far less disruptive to business - so it made our prices higher. Consider that Trump actually just made it more difficult to buy basic consumer goods from that single action. He should know better- he has many products produced there with his license agreements. So, in the end, China didn't "learn a lesson" from the tariff reform- they simply used it against us. Understand that from an insider POV, your rhetoric is very surface and seen from the lens of an outsider to what the true story is.
