Why is the situation on Jill Dr being reported live on Planet Princeton, and discussed on the Plainsboro Community page, but not here?

Matthew Baber there have been several posts on the WW peeps page and some residents have organized to go stand in support of the family.

ah, peeps. I gave up on that group when most of the the postings were bizarre personal ramblings and accusations.

Several discussions on the WW peeps (I learnt about on Peeps Thursday night I think). I was there on Sunday in support of the family

**Esther Sun** that's nice to hear. I went yesterday after seeing the Planet Princeton live report .

I had given up on peeps, in the hopes that this was the more legitimate page 🧑🏻‍🌾

**Matthew Baber** I have both 😊. Right now the leading idea is to have a sprinkler 1

**Hemant Marathe** , does the town have any opinion on this? are these people going to be permitted to stay, indefinitely?

This is international pandemic inspired fear mongering politically sponsored unsubstantiated character assassination bullying by unidentified external agents . 🧑🏻‍🌾

Both the police chief and I are aware of the situation. I have talked to the person affected. We are taking all actions we are legally allowed to take. I can't get in discussion of those actions in this public forum.

**Hemant Marathe** I encourage you to do something that makes us proud. This is evil . At the very least, move them off the sidewalk (no one can pass with a six foot clearance while they maintain their line) and permit them to gather at the elbow of the street where they are safely out of peoples way, and the community's constant line of sight . And they can stand there until the snow plows bury them under the first snow 🙏
